

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-22-1283; Docket No. CDC-2022-0102]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC),
Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Monitoring and Reporting for the Overdose Data to Action (OD2A) Co-Operative Agreement. Information will be collected to provide data to CDC for program monitoring and budget tracking, to improve timely CDC-recipient communications, and to inform technical assistance and guidance documents produced by CDC to support program implementation among funded jurisdictions.

DATES: CDC must receive written comments on or before **[INSERT DATE 60 DAYS AFTER PUBLICATION DATE IN THE FEDERAL REGISTER]**.

ADDRESSES: You may submit comments, identified by Docket No.

CDC-2022-0102 by either of the following methods:

- Federal eRulemaking Portal: www.regulations.gov. Follow the instructions for submitting comments.
- Mail: Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; E-mail: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the *Federal Register* concerning each proposed

collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

Monitoring and Reporting for the Overdose Data to Action (OD2A) Co-Operative Agreement (OMB Control No. 0920-1283, Exp. 1/31/2023) - Revision - National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC) .

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) National Center for Injury Prevention and Control (NCIPC) seeks OMB approval for the Revision of this previously approved Information Collection Request (ICR) (OMB Control No. 0920-1283, Exp. 1/31/2023) to continue collecting information from jurisdictions funded under the Overdose Data to Action (OD2A) funding opportunity.

Drug overdose deaths in the United States increased by 18% per year from 2014 to 2016. Opioid overdose deaths have increased fivefold from 1999 to 2016 and in 2017, there were more than 47,000 deaths attributed to opioids. While the opioid overdose epidemic worsens in scope and magnitude, it is also becoming more complex. The complex and changing nature of the opioid overdose epidemic highlights the need for an interdisciplinary, comprehensive, and cohesive public health approach.

The purpose of the OD2A is to support funded jurisdictions in obtaining high quality, complete, and timelier data on opioid

prescribing and overdoses, and to use those data to inform prevention and response efforts. The intent is to ensure that funded jurisdictions are well equipped to do rigorous work under both components, and to ensure that these components are linked and implemented as part of a system. This Revision request is also intended to initiate collection of new information from jurisdictions (which include states and Washington, D.C.) funded under the OD2A in States, as well as to collect new information from jurisdictions (which include U.S. Territories, cities, and counties) funded under the OD2A Limiting Overdose through Collaborative Actions in Localities.

This information is being collected to provide crucial data to CDC for program monitoring and budget tracking, to improve timely CDC-recipient communications, and to inform technical assistance and guidance documents produced by CDC to support program implementation among funded jurisdictions. Ultimately, the information feedback loop created by these information collection tools is designed to help jurisdictions decrease fatal and nonfatal overdoses. It will also provide CDC with the capacity to respond in a timely manner to requests for information about the program from the Department of Health and Human Services (HHS), the White House, Congress, and other sources.

CDC requests OMB approval for an estimated 1,075 annual burden hours. There are no costs to respondents other than their time to participate.

Estimated Annualized Burden Hours

Type of Respondent	Form Name	No. of Respondents	Total No. of Responses per Respondent	Average Burden per Response (in hours)	Total Burden Hours (in hours)
OD2A-funded state, territory, county, and city health departments	OD2A Evaluation and Performance Measuring Plan Template	22	1	4	88
	OD2A Organizational Capacity Assessment Tool	22	1	1	22
	OD2A Activity Progress Report and Work Plan	22	1	2	44
OD2A-S-funded state and District of Columbia health departments	OD2A-S Activity Progress Report and Work Plan - Initial population	51	1	11	561
OD2A-LOCAL-funded territory, county, and city health departments	OD2A-LOCAL Activity Progress Report and Work Plan	40	1	9	360
Total					1,075
